---	---	--

STAGE & EQUIPMENT

STAGE: 12' wide x 8' deep minimum

POWER: 110 volt AC (1) 20 amp circuit for audio - 2 outlets on stage
 + preferably - (1) separate 110 volt AC 20-40 amp circuit for effects/lighting - 1 outlet rear stage

SOUND: 2 balanced XLR female inputs (ch 1) panned L (ch 2) panned R to house PA system

VENUE ACCOMODATIONS

We need a private dressing area of some kind adjoining or close to the stage for us to change furnished with 4-6 bottles of water and 2 clean towels.

TRANSPORTATION

If we travel by air to the event, we will need ground transportation between airport, venue and hotel, including back to airport for departure. If we travel in our own vehicles we will need parking arranged at the venue and hotel, as well as access to loading area at venue for load in/out.

LODGING

One non-smoking double room (2 beds) as close to the venue as possible.
